

All Your Digital Assets at Your Fingertips

Why spend hours out of your week organizing, archiving, tracking and sharing your creative digital assets, when Portfolio 8.5 can do it for you.

Portfolio 8.5 is powerful digital asset management software, but think of it as your personal assistant. It allows you to visually organize, sort and preview your complete library of digital assets—both online and offline. Its built-in automated features allow you to quickly embed metadata into, archive, and share your assets with partners, clients and vendors.

Express Access from Any Application

Don't waste time navigating through file folders or jumping from one application to the next to find your assets. Use Portfolio Express™.

Portfolio Express is a floating palette that you can call up in any application. It serves as a mini Portfolio catalog window, allowing you to quickly search for, find and access your cataloged assets. You can even drag-and-drop your assets directly from the palette into your open document. It literally puts your entire asset library at your fingertips.

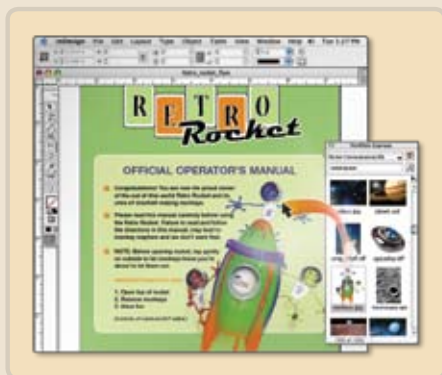

TOP REASONS YOU NEED PORTFOLIO 8.5

Find It Now

Portfolio's visual catalogs give you instant access to the information you need to find the right file fast. Want to preview an image? Portfolio generates full-screen, low-res previews so you can select the correct image without having to hunt down originals.

Track It

Want to know at a glance which images need color correction, or which are ready to send to a client? Portfolio relieves you of this guesswork with the option to create galleries (or subgroups of your catalog) for sorting and tracking assets through your workflow.

PORTFOLIO PRODUCT LINE
